SUMMARY

UI/UX Designer and Information Technology graduate with a strong foundation in end to end product design and system optimization. Specialized in User Research, Wireframing, High Fidelity Prototyping, and Front end implementation. Skilled in transforming complex user requirements into intuitive interfaces, executing comprehensive usability testing, and data driven design solutions across web based platforms. Experienced in cross functional collaboration and creative media management, ensuring seamless alignment between technical constraints, business objectives, and user-centric experiences. Passionate about crafting accessible, high impact digital products that solve real-world problems through innovative design and strategic thinking.

EDUCATION

State University of Yogyakarta

Information Technology Major

2021 - 2025

- **GPA: 3.64/4.00**
- Relevant Subjects: Programming, Web Applications, Web Design, Web Programming, Project Management Software, Visual Communication Design, Human Computer Interaction, Interactive Multimedia

WORK EXPERIENCES

PT Nusantara Regas

UI/UX Designer Intern

February 2024 - June 2024

- Designed and developed 100+ wireframes transformed into high-fidelity interactive prototypes, facilitating a full scale digital transformation for the company's internal reporting system.
- Managed the end-to-end UI/UX lifecycle to migrate legacy Excel based workflows into a streamlined digital platform, increasing reporting efficiency and data organization for offshore operations.
- Handled specialized user requirements specifically for tugboat operators and maritime personnel, ensuring the interface remains intuitive and functional within high-stakes operational environments.
- Project Focus: Internal Web Based Tugboat Reporting System & Admin Analytics Dashboard at PT Nusantara Regas, specializing in maritime logistics and gas infrastructure data management.

PROJECT EXPERIENCES

Registration System Website

UI/UX Redesign - Thesis

February 2025- July 2025

- Redesigned the university's registration system using the Design Thinking framework, creating comprehensive user flows and high-fidelity wireframes with advanced Figma features such as Auto Layout, Components, and Variants.
- Optimized user experience by over 50% and increased usability scores by 6% through iterative prototype development and rigorous usability testing to ensure a seamless registration journey.
- Translated complex Figma prototypes into a responsive Bootstrap interface, validating design feasibility and ensuring technical alignment between UI/UX specifications and front-end implementation.

Social Commerce Analytics Website

UI Design - Freelance

September 2025 - November 2025

- Architected a scalable design system for a web-based social-commerce analytics platform, utilizing advanced Figma features (Auto Layout, Components, Library, and Variants) to ensure 100% design consistency across complex data-heavy dashboards
- Spearheaded design-to-development handoffs and cross-functional collaboration, ensuring technical feasibility and pixel-perfect responsiveness while optimizing the platform's performance across multiple browser environments.
- Synthesized complex e-commerce data into intuitive visualization modules, streamlining the tracking of sales metrics, influencer performance, and audience engagement for digital brands.

ORGANIZATIONAL EXPERIENCES

Student Association of Electronics & Informatics Engineering (HIMANIKA)

Expert Staff of Information Media Division

February 2023 - January 2024

- Managed cross-functional PDD operations and branding for all major programs as Project Coordinator.
- Increased yearly audience engagement by 10% by coordinating social media content and managing the organization's digital accounts.
- Spearheaded production of 20+ visual assets, ensuring 100% brand consistency through collaborative leadership across multiple departments.

ADDITIONAL

Languages: Indonesian (Native Proficiency); English (Working Proficiency)

Technical Skills:

- Project Management: Microsoft Office Suite (Word, Excel, PowerPoint), Google Suite (Docs, Sheets, Slides).
- Video Editing: CapCut
- Graphic Design: Adobe Photoshop, Adobe Illustrator, Canva,

Soft Skills:

- Social Media Management
- Team Work
- Project Management
- Communication
- Analytical Thinking
- Problem Solving
- Copywriting, Design & Video Editing

Certifications & Professional Development:

- IBM UI/UX Designer Professional Certificate:
 - Introduction to UX/UI Design
 - Introduction to Agile Development and Scrum
 - UX/UI Design Fundamentals: Usability and Visual Principles
 - UI/UX Wireframing and Prototyping with Figma
 - UX Research and Information Architecture
 - Capstone Project: Applying UI/UX Design in the Real World
 - Generative: AI The Future of UX UI Design
